A Special Purpose Medical License can be issued to a physician who is licensed in another state to permit the use of equipment that transfers information concerning the medical condition of a patient in this state across state lines electronically, telephonically or by fiber optics if the physician:

- Holds a full and unrestricted license to practice medicine in that state;
- Has not had any disciplinary or other action taken against him or her by any state or other jurisdiction; and
- Is certified by a specialty board of the American Board of Medical Specialties or its successor.

WARNING: A physician who holds a Special Purpose Medical License cannot physically practice medicine within the State of Nevada. The practice of medicine is defined by NRS 630.020(3) as follows:

1. To diagnose, treat, correct, prevent or prescribe for any human disease, ailment, injury, infirmity, deformity or other condition, physical or mental, by any means or instrumentality.
2. To apply principles or techniques of medical science in the diagnosis or the prevention of any such conditions.
3. To perform any of the acts described in subsections 1 and 2 by using equipment that transfers information concerning the medical condition of the patient electronically, telephonically or by fiber optics.

Per Nevada Revised Statute 630.161, "The Board shall not issue a license to practice medicine to an applicant who has been licensed to practice any type of medicine in another jurisdiction and whose license was revoked for gross medical negligence by that jurisdiction".

The Board's staff conducts an investigation into your background during the application process. If staff becomes aware of circumstances** warranting a personal appearance at a Board meeting prior to acceptance of your application for licensure, your application must be completed 45 days prior to any regularly scheduled Board meeting in order for your appearance to be scheduled for that meeting for consideration of acceptance of your application. Under Nevada law, a public body cannot hold a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of any person unless it has given written notice to that person of the time and place of the meeting. The written notice must be sent by certified mail to the last known address of that person at least 21 working days before the meeting. A public body must receive proof of service of the notice before such a meeting may be held.

**** You may be required to personally appear before the Board for acceptance of your application for licensure if you have in any way ever been involved in any malpractice awards, judgments, or settlements in any amount**

**** You may be required to personally appear before the Board for acceptance of your application for licensure if you have answered in the affirmative ("Yes") to questions 8, 9, 10, 11, 12, 12a, 13, 19, 25, 26, 27, 28, 29, 30, and/or 31.**

If, at the time you meet with the Board, the Board votes to deny or not accept your application for licensure, this denial or non-acceptance of your application may become a reportable action to the Healthcare Integrity and Protection Data Bank, Federation of State Medical Boards of the United States, Inc. and American Medical Association, among other entities.

The Nevada State Board of Medical Examiners,

Because you are applying for the privilege of practicing medicine in Nevada, you should know that our state has some of the most stringent licensing requirements and comprehensive investigation programs in the United States.

Via FBI fingerprinting and other investigative modalities, our licensing specialists are likely to discover if data you have submitted on your application is erroneous or incomplete; therefore, you must answer all questions truthfully and completely. Specifically, this includes any sanctions or disciplinary actions you may have experienced during medical school or your postgraduate training, or any involvement you may have had with the legal system, either civil or criminal — criminal to include charges that may have ultimately been expunged, lessened, or dismissed, and no matter how long ago the event(s) occurred.

Explaining and documenting a problem to your licensing specialist will be much less painful than discussing your veracity before the entire Board of Medical Examiners due to inconsistencies between your application and incongruent input from outside sources.

If you have *any* questions about your application, ASK YOUR LICENSING SPECIALIST. Our licensing specialists are here to help you.
